

Product Overview

Presto LIFTS

Lift Tables

Hydraulic Lifts

Presto Lifts offers a full line of Hydraulic Scissor Lift Tables with capacities up to 8,000 lbs., available in: Light Duty, Standard Duty, Heavy Duty, and Double High configurations. They position material at just the right level, thus eliminating bending, stretching, lifting, and reaching.

Stackers

Fully Powered Stackers

PowerStak™ Stackers feature the ultimate in “walkie” design. Ergonomic controls provide lift and drive at the touch of a button. Narrow masts and offset handles provide unmatched operator visibility. Choose from fork over for open bottom pallets and skids, or adjustable straddle for any pallet or skid including closed bottom. Available with 62", 101" and 125" lifting heights, all with 2,200 lb. capacity at 24" load center.

PowerStak™ Straddle

PowerStak™ Fork Over

PowerStak™ Heavy-duty

Counterweight Stacker

LiftStik™

Powered Lift Stackers

Powered Lift Stackers

For light to medium duty usage Presto Powered Lift Stackers offer an economical alternative to forklift trucks. Light duty units can be equipped with forks or platforms and are available in straddle or counterweight designs. The WP Work Positioner is ideal for lifting, transporting and assembly applications. Pallet Stackers can service racks up to 12' high with loads up to 3,000 lbs. LiftStik™ narrow-mast stackers offer extreme maneuverability and versatility in a sleek, stylish design.

Manual Lift Stackers

Presto Manual Stackers incorporate a number of ergonomic and safety features in rugged, user-friendly designs with capacities up to 2,000 lbs. Choose from foot-pump operated, hand-pump operated, or hand-crank operated lift mechanisms.

Foot Operated Manual Stacker

Foot Operated Manual Stacker with Platform

Pallet Handling

Pallet Positioners

Presto Pallet Positioners simplify the task of loading and unloading pallets by positioning loads at a comfortable working height. P3™ All-Around units feature automatic leveling and a built-in turntable for nearside loading.

P4™ units and U-Lifts can be fed with a hand pallet truck and allow the operator to position the load at any height.

Skid Lifters offer the added flexibility of transporting loads.

Powered & Manual Hand Pallet Trucks

PowerJak™ Electric Pallet Trucks feature powered lift and powered drive for effortless transport. They are more convenient, and easier to use than hand pallet trucks and more economical than ride on devices.

For durable, economical hand pallet trucks, nobody beats Presto. Standard Duty trucks feature 5,500 lb. capacity, powder coat finish, reinforced forks, and ergonomic handle. Stainless Steel construction also available.

Turntables

Turntables can be used in palletizing, assembly, or work positioning applications. The Presto Low Profile Turntable and Floor Mount Turntable Ring are portable and can be moved easily from one work area to another. Standard turntables can be mounted to the floor, to a fixed height stand, or to a lift table.

Tilters

Container Tilters

Position containers and wire baskets at a comfortable height for accessing contents. Available in 2,000 and 4,000 lb. capacities with 89° of tilt. Stationary units can be fed with hand pallet trucks. DC powered portable units are ideal for sharing between work cells or retrieving staged containers. Floor Level units work with any style of container and can also be fed by a hand pallet truck.

Portable Container Tilter

Floor Level Container Tilter

Lifts & Tilts

For individual control of lift height and tilt angle, Presto Lift & Tilt Tables allow you to position work at the most comfortable height and angle. Fixed Height Tilters are also available and can be mounted on legs, work benches, or directly to the floor.

Pneumatic Lift & Tilt Table

Hydraulic Lift & Tilt Table

Wide Base Fixed Height Tilter

Floor Height Lifts & Tilts

Presto's wide variety of floor level equipment can be fed with ordinary hand pallet trucks eliminating the need for fork lift trucks and trained operators. Lift only and Lift & Tilt models are available.

Custom Products

Presto Lifts, Inc. offers custom designed solutions to meet a wide variety of applications that cannot be supported by one of our many standard models. From extra capacity to higher lifting heights and oversized platforms, Presto works closely with customers to supply the perfect product to satisfy specific application requirements.

Warranty

All Presto Lifts products are warranted against workmanship and faulty material in welded structural frame and assembly for a period of five years. Components have a two year limited warranty against workmanship and faulty material defects. All products exceed ANSI MH29.1, ANSI MH29.2, and B56.1 and B56.10 Standards.
