

# Product Overview

# Stackers

---

## Fully Powered Stackers

PowerStak Stackers feature the ultimate in "walkie" design. Ergonomic controls provide lift and drive at the touch of a button. Narrow masts and offset handles provide unmatched operator visibility. Choose from fork over for open bottom pallets and skids, or adjustable straddle for any pallet or skid including closed bottom. Available with 62", 101" and 125" lifting heights, with capacities of 2,200 lbs. at a 24" load center.

## Powered Lift Stackers

For light- to medium-duty use, Powered Lift Stackers offer an economical alternative to forklift trucks. They can be equipped with forks or platforms and are available in straddle or counterweight designs. The WP Work Positioner is ideal for lifting, transporting and assembly applications. Pallet Stackers can service racks up to 12' high with loads up to 3,000 lbs.

## Manual Lift Stackers

Manual Stackers incorporate a number of ergonomic and safety features in rugged, user-friendly designs with capacities up to 2,000 lbs. Choose from foot-pump operated or hand-pump operated lift mechanisms. Units can be equipped with either forks or solid steel platforms.

# Portable Mast Lifts & Portable Post Lifts

## LiftStik Portable Mast Style Lifts

LiftStik single-mast portable lifts offer superior maneuverability and versatility in a sleek, stylish design. Narrow masts provide excellent operator visibility and push-button lifting and lowering allows for precise load positioning.

Choose from a variety of platform options including standard flat HDPE, forks, V-cradles, arms with bolts, reel mandrels or reel rotators. Capacities range from 150 lbs. to 445 lbs.

## Lift'n Buddy Elevating 2-Wheel Hand Trucks

The convenience and simplicity of conventional two-wheel hand trucks with the added benefit of powered lifting and lowering.

Built on sturdy aluminum frames, all Lift'n Buddy models are lightweight, portable, and extremely maneuverable.

Three models are available.

- LNB-2 has a standard platform and 200 lb. capacity.
- The Keg Lifter works with all common keg styles and sizes. Use it for transporting to/from coolers, stacking, placing on shelves or delivering to/from vehicles.
- The Pail Lifter safely and securely handles up to three plastic pails. Use it for stacking pails, building store displays, loading shakers and tinters or delivering paint to customer vehicles.

## Portable Post Lift Tables

Post lift tables are available in a variety of configurations including two-post, four-post, and cantilever. Choose 1,000, 2,000, or 3,000 lb. capacity units with platform sizes from 20" x 30" up to 30" x 60". Lifting and lowering options include mechanical hand crank, foot pump actuated and electrohydraulic.

Hydraulic Post Lift

Hydraulic Cantilever Lift

# Lift Tables

## Hydraulic Lifts

A full line of Hydraulic Scissor Lift Tables with capacities up to 12,000 lbs., available in Light Duty; Standard Duty; Heavy Duty; and Compact, Double High configurations. They position material at just the right level to eliminate bending, stretching, and reaching in a wide variety of applications

XL Series Standard Duty Scissor Lift

HH Series Heavy-Duty Lift

XS Series Light Duty Scissor Lift

DXS Series Double Scissor Lift

CLT Series Double Scissor Lift

Pneumatic Scissor Lift & Tilt

Pneumatic Scissor Lift

Pneumatic Scissor Lift & Rotate

## Pneumatic Lifts

Pneumatic Lift Tables require no electricity and can be used anywhere shop air is available. They require less maintenance than conventional lifts, and because there is no hydraulic fluid, there is no potential for process contamination. Capacities range from 1,000 to 8,000 lbs. Available options include tilt tops and turntables.

## Portable Lifts

Portable Lift Tables are available in both powered and manual lift configurations. Capacities range from 300 to 1,500 lbs. with vertical travel up to 36". They are ideal for repositioning loads within a work cell or transporting them from one area to another.

XBP Series Portable Electric Scissor Lift

DBP Series Portable Double Scissor Lift

XP Series Portable Manual Scissor Lift

---

## Extended Vertical Travel Scissor Lifts

These high-travel double, triple, and quad scissor lifts are designed and constructed for heavy-duty applications that require extended vertical travel. Multiple scissor mechanisms allow for maximum lifting heights in a small footprint. Capacities from 2,000 to 6,000 lbs. are available with lift heights from 70" up to 356".

DSL Series Double Scissor Lift

TSL Series Triple Scissor Lift

QSL Series Quad Scissor Lift

---

## Super Heavy-Duty High-Capacity Hydraulic Lift Tables

These high-capacity, super heavy-duty lifts provide the ultimate in lifting capability. Depending on application requirements, they can be configured with one, two, or four sets of scissor mechanisms to provide capacities from 15,000 to 120,000 lbs. and platform sizes from 48" x 60" to 120" x 264". Rectangular structural tube scissor legs and torque tubes provide maximum stability and minimal deflection.

MLT Series

MLTDW Double-Wide Series

MLTDL Double Long Series

MLTQD Quad Series Double-Wide/Double-Long

# Tilters and Floor Height Lifts

## Container Tilters

Position containers and wire baskets at a comfortable height for accessing contents. Available in 2,000 and 4,000 lb. capacities with 89° of tilt.

Stationary units can be fed with hand pallet trucks.

DC powered portable units are ideal for sharing between work cells or retrieving staged containers.

Floor Level units work with any style of container and can also be fed by a hand pallet truck.

Stationary Container Tilter

Portable Container Tilter

Floor Level Container Tilter

## Tilters and Lift & Tilt Tables

Lift & Tilt Tables position work at the most comfortable height and angle. AX and XWT Series offer independent control of height and tilt angle.

Fixed Height Tilters are also available and can be mounted on legs, workbenches, or directly to the floor.

Pneumatic Lift & Tilt Table

Hydraulic Lift & Tilt Table

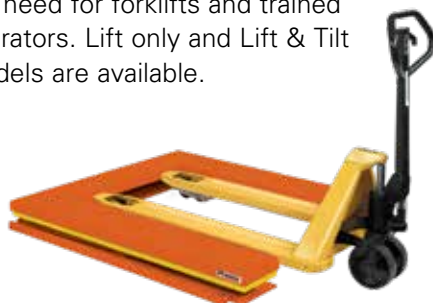

CLTLT Series SpaceSaver Lift & Tilt Table

Wide Base Fixed Height Tilter

## Floor Height Lifts & Tilts

Floor level equipment can be fed with ordinary hand pallet trucks eliminating the need for forklifts and trained operators. Lift only and Lift & Tilt models are available.

U-Lift Roll-In Lift Table

P4 Roll-On Pallet Positioner

XZ Series Floor Level Lift

XZT Series Floor Level Lift & Tilt Table

# Pallet Handling

## Pallet Positioners

Pallet Positioners simplify the task of manually loading and unloading pallets by positioning loads at a comfortable working height.

P3 All-Around units automatically adjust the platform height as boxes are added or removed. A turntable top allows operators to spin the load so they are always working from the nearside. Choose from airbag or spring styles.

The P4 has a platform that lowers to floor height so it can be fed with a hand pallet truck. Operator controlled lifting and lowering allows users to precisely position the loads at any height. The P4 is also available with an integrated turntable platform.

P3 All-Around Pneumatic Load Leveler

P3 All-Around Spring Load Leveler

P3 All-Around Stainless Steel

P4 Roll-On Pallet Positioner with integrated Turntable

P4 Roll-On Pallet Positioner

P3 Operator Controlled Pallet Positioner

## Turntables

Turntables can be used in palletizing, assembly, or work positioning applications.

The Low Profile Turntable sits only 1/8" off the floor and can be loaded with a hand pallet truck.

The Floor Mount Turntable Ring is portable and can be moved easily from one area to another.

Standard turntables can be mounted to the floor, to a fixed height stand, or to a lift table.

Powered turntables rotate loads at the touch of a button.

Lift Mounted Turntable

Powered Turntable

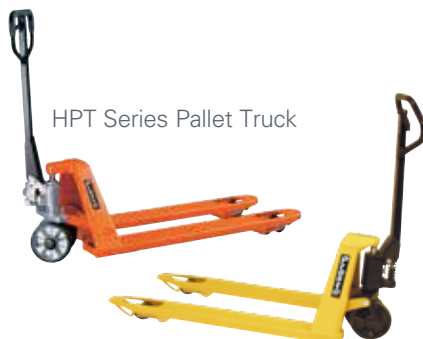

Standard Turntable

Floor Mount Turntable Ring

Low Profile Turntable

HPT Series Pallet Truck

RL Series Pallet Truck

Manual Skid Lifter

## Hand Pallet Trucks

Durable, economical hand pallet trucks in standard duty with 5,500 lb. capacity or heavy duty with 6,500 lb. capacity.

They feature powder coated paint finish, reinforced forks, and comfortable ergonomic handle.

Skid Lifters not only transport, but can also elevate loads up to 32".

# Upenders & Dock Lifts

## Upenders

Heavy-duty upenders with capacities of 2,000 to 10,000 lbs., tilt angles up to 90° and platform sizes up to 72" x 72". The primary application for these devices is to reorient loads (rolls and coils) from horizontal to vertical positions.

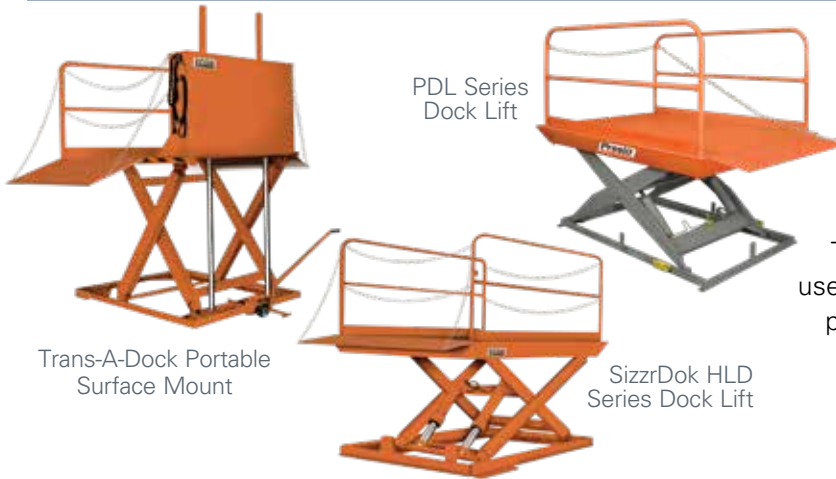

HUE Series Hydraulic Upenders can be mounted on scissor lifts or used as stand-alone upenders.

UT90 Series Upenders are available with platens or forks as well as optional v-cradle platforms.

HUE Series Upender

UT90 Series Upender

Trans-A-Dock Portable Surface Mount

PDL Series Dock Lift

SizzrDok HLD Series Dock Lift

## Loading Dock Lifts

PDL Series and SizzrDok HLD Series Lifts are designed for permanent pit or pad mounting. Load capacities range from 5,000 - 12,000 lbs. with platform sizes from 48" x 96" to 96" x 144".

Trans-A-Dock Surface Mount Lifts are suitable for use where permanent installation is not possible or practical. Capacities range from 3,000 - 5,000 lbs. with platforms from 72" x 72" to 72" x 96".

All loading dock series offers a variety of load transfer arrangements.

## Custom Engineered Solutions

Our in-house professionals have vast experience in the design and manufacture of lift tables, dock lifts, turntables, tilters/upenders and pallet positioners. Employing the latest in computer aided design tools, our engineering team can meet virtually any lifting need, anywhere in the world.
