

Lift'n Buddy Powered Lifting Keg Transporter

Powered Lift Capability... 2-Wheel Truck Simplicity

The ultimate tool for keg transporting, lifting and loading. Compact size, unmatched maneuverability, ease-of-use and powered lift mechanism make the Keg Lifter perfect for: Beer Distributors, Pubs and Restaurants, Micro Breweries, Liquor Stores, Wholesale Clubs, Casinos, Nightclubs, Function Halls, Catering Facilities, Arenas, Stadiums and more.

Simply wheel the Keg Lifter up to a keg until its sturdy lifting bracket positively engages the keg's top handle. The bracket design ensures the keg is held firmly and securely in place while lifting, lowering and transporting.

The Keg Lifter moves in two ways: for long distances it tilts back like a conventional two-wheel truck; or in congested spaces it can be maneuvered with all four wheels on the ground. The unit is freestanding even when loaded and lifted. Kegs are raised or lowered quickly by simply engaging the rocker style switch mounted to the drive/steer handle.

Works with a variety of keg sizes and styles. Use it to stack or unstack kegs from one another; load shelves in store rooms, coolers or tap rooms; or load customer vehicles.

The Keg Lifter's battery provides ample power for a full shift and recharges quickly with the included 110V charger.

Works with a wide variety of keg shapes and sizes

Sturdy lifting bracket provides sure grip when lifting/moving

Unique caster design allows for upright or tilted movement

Adjustable lifting bracket accommodates shorter kegs

Keg Lifter Improves Worker Productivity and Safety

Employees responsible for handling heavy (160 lb.) beer kegs appreciate the convenience and versatility of the Lift'n Buddy Keg Lifter. It easily lifts and lowers kegs at the touch of a button and its 10" pneumatic wheels roll easily over any surface indoors or out.

In liquor stores, use it to pick kegs from pallets and place them in walk-in coolers.

In bars and pubs, the Keg Lifter can be used to stack kegs on top of each other or load kegs on shelves in tap rooms.

Keg Lifter Improves the Customer Experience

The Keg Lifter is a great way to deliver top shelf customer service too. Use it to retrieve orders for customers, deliver them to the checkout aisle, and then bring them to the parking lot and load them into the customer's vehicle.
